PROFESSIONAL EXPERIENCE

Xact Data Discovery

Regional Vice President of Forensic Services, Minneapolis, MN

April 2017-Present

Director of Forensic Services, Minneapolis, MN

March 2013-April 2017

- Manage and conduct digital forensic collections in complex litigation, government investigations, and internal corporate investigations. Plan, deploy, and supervise large-scale, enterprise preservation and collection.
- Perform forensic examinations across various digital devices and storage media utilizing forensic software such as FTK and EnCase.
- Conduct intellectual property and trade secret investigations, including MS Windows registry investigation, Internet history recovery and analysis, data transfer mediums, and deleted file and unallocated space data recovery.
- Produce written and digital reports of forensic examinations and processes.
- Oversee evidence management/chain of custody (acquisition/preservation, analysis, reporting).
- Provide expert testimony via deposition, affidavit, and courtroom testimony.
- Consult with IT and compliance managers on data retention and efficient preservation policies.
- Manage day-to-day forensic lab protocols and workflow for all company offices.
- Test, train, and implement processes for forensic software and hardware.
- Serve on company's senior management team, including strategic planning, corporate process development, and task rollout and oversight.
